About Newdecor

Located in Melbourne, Newdecor is an innovative designer, manufacturer and distributor for the 3D wall & ceiling panels. Newdecor is set to become a leading provider for modular 3D wall arts and custom made sets for varied residential and commercial feature wall & ceiling projects.

Our products are stunning and instantly recognizable. The 3D pattern with color will bring your space into a new level. Newdecor main products include Newdecor 3D PU Modular Wall Arts, Newdecor Glass-Fibre Reinforced Gypsum (G.R.G) Sculptural Wall & Ceiling Panels and Newdecor 3D Plant Fibre Panels. We will assist you to select them to best suit your requirements, projects and budget. Since 2009, we have built up a long-term relationship with the local home ware and furniture retailers, as well as architects, designers, decorators and builders. Our products are delivered anywhere in Australia, New Zealand, Singapore, UK and India.

Newdecor 3D PU Modular Wall Arts

Moulded by polyurethane (PU), wood pulp and stone particles, Newdecor 3D PU Modular Wall Arts are eco-friendly, acoustic, light-weight, pre-finished, repaintable, removable and DIY installation. Including above 40 3D modular patterns, our 3D wall arts will transform your room with works of art in the easiest way. Our products have been widely introduced and used through local retail outlets and thousands of local designers, architects and builders.

Our 3D PU Wall Arts are suitable for the interior decorative furnishing without the fire-rate requirement. We aim to provide an affordable and easy option for your interior space feature wall and ceiling.

Applications

For residential customers, our 3D wall arts are suitable for most of home wall improvement, i.e. lounge, home theatre, LCD TV room, study room, dining room, bedroom and staircase, etc.

For commercial customers, our 3D wall arts have been used for most of interior wall improvement, i.e. Expo stand, meeting room, foyer, hotel, reception, retail shops, bar and function room etc.

Newdecor 3D Modular Wall Arts can't take place of any substrates and must be kept away from open flame, excessive heat and excessive moisture environment.
